

For Sale in Rhodes Greece

1983 Rhodes 22 with In Mast Furling, all cruising gear, positive foam floatation making it unsinkable. This boat was sailed along the British Columbian coast, much of the length of the Sea of Cortez and then shipped over to Barcelona where it was then sailed by a 70-year-old couple (us) from there to Rhodes Greece over 3 summers. If they can do this trip with this boat, you can too. Below is a link to the journals that were kept of this 5,000 km Mediterranean trip with lots of pics and details about cruising on this pocket cruiser, and how it is equipped. US flagged, insured, no VAT, no Transit Log required and no restrictions on length of stay in Greece as documented.

3800 €
